

# Centaur

**A pendant luminaire with an anodised aluminium reflector, the Centaur is suited to open areas with high ceilings such as atriums, lobbies or semi-industrial areas. The Centaur features an extruded aluminium body with excellent heat dispersion properties and is available in 42w compact fluorescent or 70w or 150w metal halide. All discharge versions are supplied with protection glass as standard. 32w & 57w compact fluorescent lamp versions available on request.**

- Aluminium extruded body
- Anodised aluminium reflector
- Stainless steel suspension wire
- CFL or metal halide lamp options
- Supplied with protection glass for discharge versions

## Centaur
