

# Go XT Table

**The Go XT Table offers a highly flexible lighting solution, especially when partnered with a Bill task light. Mountable to any suitable horizontal surface via a single fixing hole. The Go XT Table is supplied in white with 2-step control as standard. Grey and black finishes are also available. Additionally, the units can be supplied with optional dimming and sensor for movement and constant light control. Mounting converters for leading furniture brands are available.**

- OSA anti-glare technology
- Aluminium construction
- High frequency gear
- White, grey or black finish
- Direct/indirect light
- Integral sensor option
